False words

I was watching the news today and came across what I had referred to a few articles ago-- that is Artificial Intelligence. *By definition --the word artificial made or produced by human beings rather than occurring naturally, especially as a copy of something natural!* So, this story said that these powers to be today that are trying to reshape our thoughts and our lives have planned to have this Artificial intelligence to re-write the bible over with what these computers think how it should have been written. This is part of the one world government system that is being developed that will try to control our mind and our spirit, so we just do what a computer or some man wants to happen.

This is all the preparation for the one world system to pave the way for the anti-Christ to be able to control our minds and forget the Lord Jesus and His word –the words of the bible. This is not new for it has always been for dictators have always tried to shut down the minds of their subjects for they know if people’s minds are alive and well then, they will challenge their lies and deceptions.

That is and has been the great deceiver’s plan. He wants to remove the truth from the minds of the world. He does not have new ideas but counterfeits God’s words and twists them around and people with unsound minds or corrupt minds are deceived easily. He does not have to convince people but to put doubt into their minds and with doubt –which is the opposite of faith—they will not stand for truth and be led into his ways of evil.

So, if the enemy then writes a new bible by this artificial intelligence the way he wants it then he puts that doubt into the minds of people that believe God and their faith is contaminated and they cannot persevere in the faith when hard times come. **Did God really say?** You can also see the many translations of the bible and the paraphrase versions that get people to take the easy road and just read something that is similar to the word of God.

They have already had AI preach a sermon in a church in Germany a short time ago. Where will it all end? Man, or should I say the spirit of anti-Christ is doing his old

tricks of deluding men by something other than the word of God and the calling of God to the many that are lost.

So, this continues and will grow worse for the true believers as time goes on. This is just the beginning but will continue to grow and many will fall into the trap as many have already fallen into the trap. False churches abound today and have been getting worse for about a century. The true word of God has been preached less and less from the pulpits of churches. They prefer to preach what the people in the pew want to hear and not what they need to hear. The critical issues of today are ignored because no one wants to rock the boat and stir up controversy. Just pat them on the head and say, “good boy” --like you would a pet dog --and fail to tell them that they are in danger of hell fire. I don’t know how many times I have heard from the pulpit that this is a wonderful church but knowing in my heart that it is a lost and helpless church with no understanding of the word and has no spirit in them.

So, the anti-Christ does not need to bother with this artificial intelligence writing a new bible for the churches because they have done a good job of writing a new bible themselves for, they have already taken the heart of the words out and replaced it with their own words. That is why the world is in such a disastrous state for there is very little truth left and man’s word which is also counterfeit has replaced truth.

There are many churches that are in this helpless state and have no understanding of the word but just pat each other the head and say “good boy” just behave and I will give you a treat –see you next Sunday. But they have no power to give them a treat because the eternal treat is given only by the Lord Jesus and that is redemption and promise of eternal life.

So, we have the world system which is directed by the enemy of God, and we are not even understanding what is happening even though the bible is full of what is going to and is already happening. OH—churches of today where have your mind and heart been? Have you been busy making your casseroles and helping little old ladies across the street and forgotten that there is a hell, and many are heading there, and no one is warning them.

It was your job number 1 and you failed. Repent and open your bible again and weep bitterly at your failure to preach the gospel of Jesus Christ. --*Howard*
